## Milwaukee Tool Co.

www.milwaukeetool.com

1-800-SAWDUST

13135 W Lisbon Rd
Brookfield, WI 53005

**Brent Alfonso**, National Account Manager
brent.alfonso@milwaukeetool.com
(262) 957-0322

**Matt Huber**, Key Account Manager- Communications
matthew.huber@milwaukeetool.com
(215) 704-4003

Since the company began in 1924, Milwaukee Tool has led the industry in developing innovative solutions that deliver increased productivity and unmatched durability for professional construction users. Whether it is through our world-leading M12™ and M18™ cordless systems, the ground-breaking performance of our M12 and M18 FUEL™ products, jobsite lighting, time-saving accessories, or innovative hand tool and storage products, we are dedicated to delivering a continuous flow of advanced, trade-specific solutions.

We invest the time to work side-by-side with real users to understand the demands of a constantly changing workplace and how we can best deliver solutions for a safer, more productive jobsite. Through a thorough evaluation of the job at hand – the frustrations, needs, and previous limitations – we set out to completely rethink a solution and deliver the game-changing innovation seen across all our product lines. Milwaukee Tool is not simply a manufacturer – we are progressive problem solvers.

## Yates, LLC

www.yatesins.com

(404) 633-4321

2800 Century Parkway, Suite 300
Atlanta, GA 30345

What started as a goal to help Georgia contractors with insurance and bonding in 1949 has continued to grow due to two things: integrity and strong relationships. We exist to protect what you've built. As our agency continues to grow and mature, we remain committed to the same principles shared by Dan & Alan Yates over 50 years ago: "We are going to look after our clients and prospects needs like they are our own, and our goal each day is to do our best.".

4501 North Point Parkway, Suite 125
Alpharetta, GA 30022

ZCorum provides a comprehensive suite of broadband products and services to broadband operators, including Municipalities, Utilities, MDUs, Cable Operators and Telephone Companies. Our solutions range from pre-deployment and deployment services for those who are entering the broadband market or expanding (feasibility studies, engineering and construction), to the equipment, services, and software needed to deliver a quality broadband experience to your subscribers more efficiently and for less cost. For example, our turn-key IPTV solution requires much less headend equipment, no set-top box and it includes national and local programming. We also offer cloud-based residential and commercial VoIP, data and voice provisioning on the CPE, engineering assistance, advanced network monitoring, and 24 x 7 technical support for the end-user. In addition, we provide Carrier Grade NAT solutions for IPv4 conservation and IPv6 migration, DDoS mitigation, comprehensive Trusted Third Party (TTP) services for CALEA compliance, as well as fiber access equipment, routers and switches. Finally, our patented and award-winning TruVizion diagnostics software helps broadband providers find and troubleshoot subscriber and plant issues on Fiber and DOCSIS networks more quickly and efficiently.
